BCM50 R6 Download Links

Since most modern browsers have disabled Java it has caused big problems for people trying to download Element Manager from a BCM50 using the Application Launcher. It is possible to download Element Manager and most other BCM applications directly from the BCM50. All you need is the LAN address of the BCM50 and your nnadmin login credentials, as the BCM50 will prompt you to login before proceeding with the download.

Assuming the default BCM50 LAN address of 192.168.1.2, the application download links are listed below. Simply edit the IP address, as needed. These links are valid for the BCM50 R6. If you have an earlier release BCM50 many of these links will not work.

Activity Reporter Client - http://192.168.1.2/apps/private/ActivityReporterClient.exe

BCM Monitor - http://192.168.1.2/apps/private/BCMMonitor.zip

BCM Radius - http://192.168.1.2/apps/private/BCMRadius.zip

Business Element Manager - http://192.168.1.2/apps/public/EM-62.0.3.zip

Call Detail Recording Client - http://192.168.1.2/apps/private/CdrClientInstaller.exe

Contact Center Reporting - http://192.168.1.2/apps/public/ReportingforContactCenter.exe

Contact Center Reporting - http://192.168.1.2/apps/public/ReportingforContactCenter.exe

Desktop Assistant Pro- http://192.168.1.2/apps/public/DAPro.exe

Desktop Assistant Pro Administrator Edition - http://192.168.1.2/apps/private/DAProAE.exe

Desktop Messaging - http://192.168.1.2/apps/public/CallPilotDesktopMessaging.exe

Desktop Messaging (64-bit) - http://192.168.1.2/apps/public/CallPilotDesktopMessaging_x64.exe

Digital Mobility Controller - http://192.168.1.2/apps/private/Digital_Mobility_OAM/Digital_Mobility_Controller_setup.exe

Digital Mobility Service Tool - http://192.168.1.2/apps/private/Digital_Mobility_Service_Tool/Digital_Mobility_Service_Tool_1.2.0.14_setup.exe
